DryGuard® enhanced oriented strand board (OSB) is an unsanded, multi-layered wall and roof sheathing product that has improved moisture resistance throughout the panel plus a black edge seal to help reduce moisture absorption. This means protection from the elements that helps avoid costly and time-consuming moisture-related issues like edge swell. Each panel is third-party certified for quality and is rated for Exposure 1 bond durability for protected applications and limited exposure during normal construction delays.

**Available Sizes** (Sized for 4’ x 8’)
- **Square Edge** 3’-11½” (1.216 m) x 7’-11½” (2.435 m)
- **Tongue & Groove** 3’-11½” (1.206 m) x 7’-11½” (2.435 m)

**Building Code Performance Categories, Panel Thickness** (Struct 1)
- 1/2 CAT, 0.483” (12.26 mm)
- 19/32 CAT, 0.578” (14.68 mm)
- 23/32 CAT, 0.703” (17.85 mm)

**Specifications**
- **Length/Width Tolerance** ±⅛” (±1.6 mm)
- **Straightness Tolerance** ±⅛” (±1.6 mm)
- **Squareness Tolerance** ±⅛” (±3.2 mm)
- **Testing Agency** APA®–The Engineered Wood Association
- **Classification** Exposure 1 – OSB suitable for uses not permanently exposed to the weather. Panels classified as Exposure 1 are intended to resist the effects of moisture on structural performance as may occur due to construction delays, or other conditions of similar severity.
- **Code Fire Classification** Class III or C
- **Flame Spread Rating** 76-200, smoke-developed index <450
- **Building Code Compliance** PS 2-10

**Other Information**
- **Forestry Certification** DryGuard OSB panels are made from Forest Stewardship Council® (FSC®) certified wood sources.
- **NGBS Green Certified** DryGuard OSB is Home Innovation NGBS Green Certified for Resource Efficiency and Indoor Environmental Quality. Please visit Homeinnovation.com/Green for more information.
- **Product Warranty** DryGuard OSB is covered by a Lifetime Limited Warranty. For terms and conditions, please refer to our Lifetime Limited Warranty available at www.builditbetter.com.
International Shipping

To prevent the introduction and spread of plant pests, ISPM 15: International Standards for Phytosanitary Measures, requires that internationally shipped solid wood pallets be debarked, treated with heat or fumigated with methyl bromide, and marked with a seal of compliance. **Pallets made with engineered wood, including DryGuard® OSB, are exempt from ISPM 15 regulations.** This is because the process of manufacturing engineered wood destroys any live organisms in the wood. (Source: “Boxes, Crate and Reel Manufacturing”, www.PerformancePanels.com)

Formaldehyde Emissions

DryGuard OSB contains no added urea formaldehyde resins. PS 1 and PS 2 structural panels are exempt from testing by the California Air Resources Board (CARB) in the Composite Wood Air Toxic Control Measure (ATCM) and phenolic bonded structural panels are exempt from testing or monitoring by HUD in the Manufactured Home Construction and Safety Standards.
