

# Specifications

**DryPly® plywood Sturd-I-Floor® panels** are ideal for residential and light commercial construction, and provide outstanding performance for sub-floors. They have a water-repellent coating to provide weather protection during the normal exposed construction cycle\*, and add proven performance and durability to new homes, room additions and renovations.

### Available Sizes (Sized for 4' x 8')

<b>Square Edge</b>	3'-11 <sup>7</sup> / <sub>8</sub> " (1.216 m) x 7'-11 <sup>7</sup> / <sub>8</sub> " (2.435 m)
<b>Tongue &amp; Groove</b>	3'-11 <sup>1</sup> / <sub>2</sub> " (1.206 m) x 7'-11 <sup>7</sup> / <sub>8</sub> " (2.435 m)

### Building Code Performance Categories, Panel Thickness

- 19/32 CAT, 0.578" (14.68 mm)
- 23/32 CAT, 0.703" (17.85 mm)

### Specifications

<b>Length/Width Tolerance</b>	+0, - <sup>1</sup> / <sub>16</sub> " (+0, -1.6 mm)
<b>Straightness Tolerance</b>	± <sup>1</sup> / <sub>16</sub> " (±1.6 mm)
<b>Squareness Tolerance</b>	± <sup>1</sup> / <sub>8</sub> " (±3.2 mm)
<b>Primary Species</b>	Southern Yellow Pine
<b>Water Repellent Coating</b>	Wax emulsion based surface sealer
<b>Testing Agency</b>	APA®—The Engineered Wood Association
<b>Classification</b>	<b>Exposure 1</b> – Plywood suitable for uses not permanently exposed to the weather. Panels classified as Exposure 1 are intended to resist the effects of moisture on structural performance as may occur due to construction delays, or other conditions of similar severity.
<b>Code Fire Classification</b>	Class III or C
<b>Flame Spread Rating</b>	76-200, smoke-developed index <450
<b>Building Code Compliance</b>	PS 1-09

### Other Information

<b>Forestry Certification</b>	DryPly plywood Sturd-I-Floor panels are made from wood sourced through a system that is third-party certified to the Sustainable Forestry Initiative® procurement standard.
<b>Green Building Programs</b>	See our DryPly plywood <i>Sustainability Fact Sheet</i> available at <a href="http://www.builditbetter.com">www.builditbetter.com</a> for more information on potential point contributions towards specific green building programs.
<b>NGBS Green Certified</b>	DryPly plywood is Home Innovation NGBS Green Certified for Resource Efficiency and Indoor Environmental Quality. Please visit <a href="http://Homeinnovation.com/Green">Homeinnovation.com/Green</a> for more information.
<b>Product Warranty</b>	DryPly plywood is covered by a Lifetime Limited Warranty. For terms and conditions, please refer to our Lifetime Limited Warranty available at <a href="http://www.builditbetter.com">www.builditbetter.com</a> .

\*Approximately four weeks of normal exposed construction cycle.

# Specifications

## International Shipping

To prevent the introduction and spread of plant pests, *ISPM 15: International Standards for Phytosanitary Measures*, requires that internationally shipped solid wood pallets be debarked, treated with heat or fumigated with methyl bromide, and marked with a seal of compliance.

**Pallets made with engineered wood, including DryPly® plywood, are exempt from ISPM 15 regulations.** This is because the process of manufacturing engineered wood destroys any live organisms in the wood. (Source: "Boxes, Crate and Reel Manufacturing", [www.PerformancePanels.com](http://www.PerformancePanels.com))

## Formaldehyde Emissions

DryPly plywood Sturd-I-Floor® panels contain no added urea formaldehyde resins. PS 1 and PS 2 structural panels are exempt from testing by the California Air Resources Board (CARB) in the *Composite Wood Air Toxic Control Measure (ATCM)* and phenolic bonded structural panels are exempt from testing or monitoring by HUD in the *Manufactured Home Construction and Safety Standards*.

## Manufacturing Locations

Location	APA Mill Number	Zip Code	Harvest Radius
